NCOER BULLET EXAMPLES:

NOTE: MAKE SURE THE EVALUATION AND BULLETS ARE REFLECTIVE OF YOUR LEADERS. This guide *is not intended* to be a source of “cut and paste” bullets for you to simply “check the block” on an evaluation. RATER OVERALL PERFORMANCE PART IV:

The user may enter up to five lines of text and spaces in BULLET FORMAT to comment on the Rated NCO's overall performance during the rating period as compared to all NCOs in this grade the Rater has ever rated. A common error is when Raters comment on future potential.

Senior Raters comment on potential.

Examples of “OVERALL PERFORMANCE” bullets can be found in the next section.
SENIOR RATER OVERALL POTENTIAL PART V: 5 lines of NARRATIVE format.

NOTE: If NO counseling was done during period, this is where the SR Rater would explain why.

NOTE: NCOs who are found to have **substantiated** SHARP, EO, and/or EEO complaints resulting from an AR 15–6 investigation or other official investigation by military or civil authorities, the senior rater will annotate a separate bullet comment **“does not support SHARP, EO, and EEO”**

It is suggested that the narrative have the following elements: Overall performance during period; Promotion status/potential; School assignment; Performance potential.

The following are examples of how to format a narrative:

Example:

SFC SuperHero performance as a Division lead has been remarkable. Competent and motivated, SFC SuperHero deployed her team in support of a Homeland Response force operations and demonstrated a unique ability to operate in a complex environment. Strong potential; promote to Master Sergeant and assign as a 1SG now. Send to MLC as soon as possible. She is destined to excel, raise standards and motivate our future formations.

Example (in a different order):

SGT Snuffy is a strong Sergeant; intelligent, motivated, and with some experience as a Team Leader and Training NCO, will make an outstanding Staff Sergeant. Send to ALC when eligible, promote when ready. SGT Snuffy has unlimited potential and will excel in any position. During this rating period, SGT Snuffy has taken on numerous extra duties and performed them with distinction.

Example (for a less than stellar NCO):

SSG Joe's performance this rating period is not at the level of a SSG. He personally lost accountability of equipment within his squad on three separate occasions. SSG Joe needs to take personal initiative to bring himself to the competency level of his current rank. He should not be sent to any military school until he has addressed his shortcomings. Unless SSG Joe takes steps to improve, he should be allowed to ETS without effort to retain.
